

Internet Explorer Mode in Firefox

1. Hope you have latest Mozilla Firefox installed: (visit: <http://www.mozilla-europe.org/>)
2. then go to <https://addons.mozilla.org/de/firefox/addon/10909> and install the small plugin by adding it to firefox.

**Coral IE Tab**
von quaful

An enhanced version of IE Tab which enables you to use the embedded IE engine within tabs of Mozilla Firefox. It supports Adblock Plus in IE, and can sync cookies between IE and Firefox.

3. [https://addons.mozilla.org/de/firefox/addon/10909](#)

4. [https://addons.mozilla.org/de/firefox/downloads/latest/10909/platform:5/addon-10](#)
5. After waiting some secs. There appears “jetzt installieren / install now “ button. Click on it.

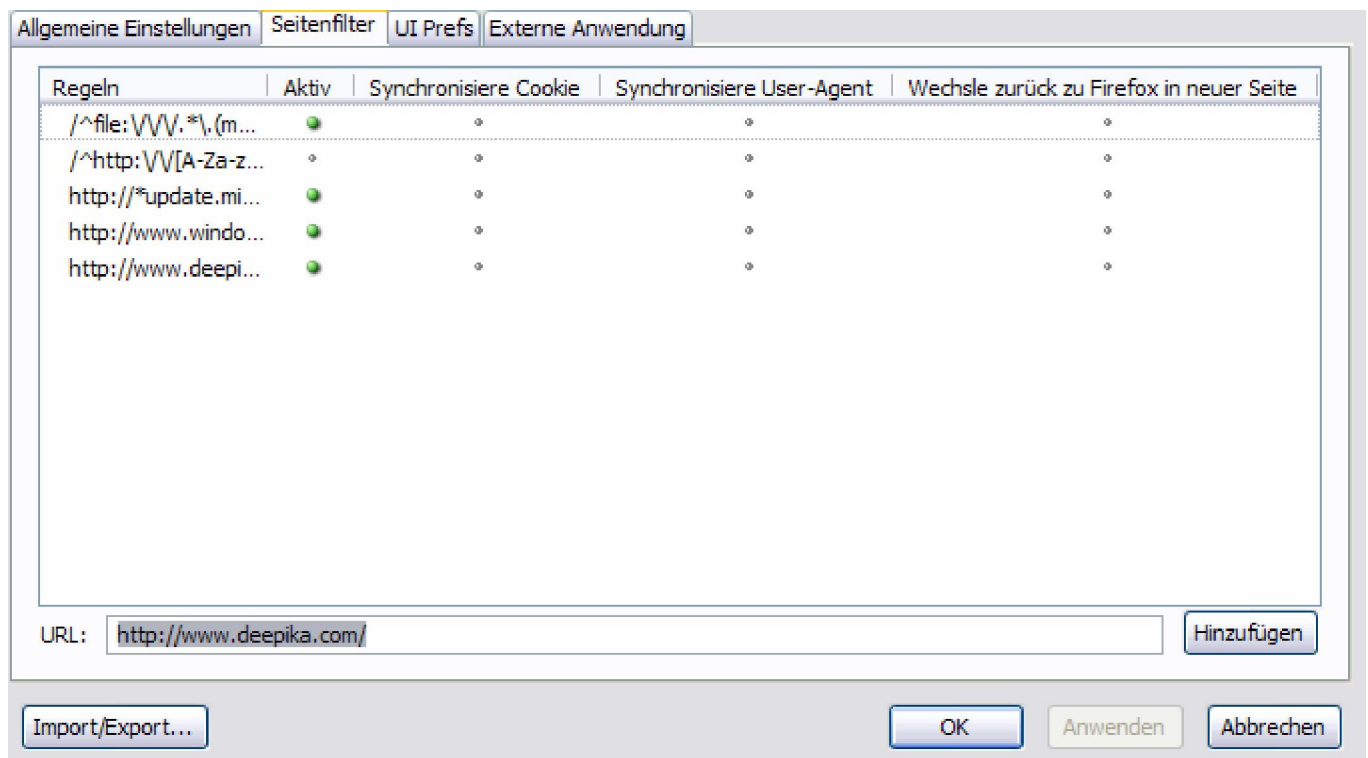

6. New start the firefox after installation:

7. now go to www.deepika.com in firefox. You will see  icon on the right corner of firefox. Click on that icon once. Now you have there  icon.

8. Right mouse click on the icon , then select “einstellungen” : then click on the second tab “seiten filter”

9. there is a filed for url. Give the url (site address. E.g www.deepika.com or www.mathrubhumi.com) and click hinzufügen / add then “ok”

10. now onwards your firefox will automatically switch on to Internetexplorer mode in itself.
